

## HighlyDef Producing 1 hour Urban Docudrama for DVD

(May5, 2004) Principal photography has started for "On Our Way Up" a DVD docudrama for December 2004 release. Shooting the violent "growing up in the hood" reenactment docudrama will feature street hustlers and families in the Kirkwood neighborhood of Atlanta, an area with the highest violent crime and robbery rate in past years.

Anthony Clark and Emmanuel Clark of Three C Studios are Executive Producers. Ben Buie will produce for HighlyDef Productions. Ben really enjoyed the first week of shooting and said, "This project is very unique and exciting from a production standpoint". "Everything is being shot on-location and the actors are all current or past residents of Kirkwood, " said the Producer.

"However, we are using true Hollywood-style production elements, HD cameras and movie-lighting. It is definitely not being shot 'gonzo' or 'ENG'. We are going for a product that takes the best elements of a documentary and the best elements of a short film and combining them into a compelling show. It should make for an explosive combination," said Buie.

**HighlyDef Productions, LLC** is an Atlanta based video production company specializing in High Definition video production for businesses in the entertainment and Public Relations fields.
